⊘ ABOUT

With a foundation in illustration and four years as a veterinary assistant, I've honed my problem-solving skills and empathy in nuanced ways. As a UX/UI designer, I leverage these strengths to create user-centered designs.

Transitioning into UX/UI development, my focus is on fostering intelligent and engaging product interactions through thoughtful user analysis and intuitive design.

📖 CERTIFICATIONS

UX/ UI Boot Camp   May 2023 – November 2023
University of Oregon   Beaverton, Oregon
Applied UX/UI design principles to successfully complete three projects within a six-month timeframe. Collaborated with a team on group projects, executed prototyping and UI design, conducted user research, and gained proficiency in fundamental web technologies, including HTML5, CSS3, and JavaScript.

🗁 DESIGN PROJECTS

Teach to One
August 2023 – Present
Worked collaboratively on a three-week project to redesign the Teach to One website experience. Conducted comprehensive interviews with the website team, analyzed product competitors, and executed user interviews and tests. Developed a high-fidelity clickable prototype integrating Teach to One brand elements.

Paper Ponds
October 2023 – Present
Contributed to a three-week project, "Paper Ponds," involving background research, user interviews, and asset creation. Utilized Figma, Adobe Illustrator, Photoshop, AutoCAD, Procreate, Trello, and Google Suite for effective collaboration. The project culminated in a user-tested high-fidelity game prototype for the iPad Pro.

USDA Forestry Service
August 2020 – present
Developed and refined wireframes and clickable prototypes for desktop and mobile. Synthesized a style guide for hi-fidelity prototyping. Conducted usability tests for mobile design, incorporating feedback into the iterative design process.

🔨 TOOLS

- Figma
- Adobe Illustrator
- Adobe Photoshop
- Adobe Fresco
- ProCreate
- Google Suite

🧠 SKILLS

- Wireframing
- Rapid Prototyping
- User Interaction Design
- User Flows
- Usability Testing
- Information Architecture
- Heuristic Analysis

💼 WORK EXPERIENCE

Cornell Center Animal Hospital   July 2021 – present | Beaverton, OR
Veterinary Assistant
Applied empathetic communication skills to listen to clients and collaborate effectively with team members, fostering a client-centric approach towards veterinary care.

Banfield Pet Hospital   July 2019 – July 2021 | Tigard, OR
Veterinary Assistant
Promoted responsible pet ownership by discussing health, treatment, and behavior with pet owners. Maintained clear communication with clients before, during, and after patient visits.

🎓 EDUCATION

Oregon State University   2014 | Corvallis, Oregon
Completed coursework towards Bachelors of Science
